

The Little Green Wagon

A ResourceSmart School Classroom Resource

In addition to providing you with a Facilitator to support you and your students through the ResourceSmart Schools program, Grampians Central West WRRG has the “**Little Green Wagon**” as well.

The Little Green Wagon can be used as an Outdoor Classroom, and carries materials to support student learning in each of the RSS modules.

The RSS module materials are aligned with and regularly updated to meet the current Victorian School Curriculum requirements.

But the Little Green Wagon can be used as much more than just an Outdoor Classroom. Do you have a school or community event coming up? Would you like to promote an aspect of sustainability that your school has been focussing on? We can bring the Little Green Wagon to you to help support your activities.

In addition to RSS, the Little Green Wagon has information and materials in all of the community education programs that we run, including.....

- Litter Super Heroes
- Composting and Worm Farming
- Love Food Hate Waste
- E-Waste
- Waste to Energy
